1. The following Subcategories are bringing incorrect products
Ceiling Fixtures-Flush Mount - connect to Subcategory "Flush Mount"
Ceiling Fixtures- Semi Flush Mount - connect to Subcategory "Semi Flush Mount"
Outdoor Lighting - Outdoor Flush - connect to Subcategory "Outdoor Flush"
2. Product Detail Page - for Related Items - use Coordinating Items
3. Product List Page - if on Page 3 and 48 per page then click on a SKU - on return I return to page 1 and 24 per page
4. from in shopping cart i clicked on "Edit Order" Button - went to Home Page

```
select  p.ProductID, p.ProductCode,  s.Category, p.Title,
p.DescriptionWeb, p.ImageName, p.IsActive,
p.UnitPrice
from Products34 p
inner join search34 s on  p.ProductID = s.ProductId
where s.Category like '%OUTDOOR FLUSH%'
and p.ClientID = 34
--and p.ProductCode = '3220AN'

SELECT        TOP (200) ProductId, UnitPrice, Category, finish_name, style, width, height,
energystar, ADA, wattage, vendor, bulb_type
FROM            search34
WHERE        (Category LIKE '%Semi Flush Mount%') AND (ProductId = 196097)
```
